VCE Extension Studies in 2019

➤ **Deakin University – Deakin Accelerate**

Deakin Accelerate is a distinctive VCE higher education program that allows students to study two first-year university subjects during Year 12. Studying one subject per trimester, this selective program gives students a head-start into university studies and also provides a potential boost to their all-important ATAR score.

Besides the challenge of taking on a university subject, this subject will also count as part of the VCE and contribute towards the ATAR as the fifth or sixth subject. There are no tuition fees for Deakin Accelerate.

Courses with Real World Experience

The ***Bachelor of Accounting & Information Systems (BAIS)*** and ***Bachelor of Information Technology (BIT)*** are both industry scholarship courses that include two 20-week placements. Professional development opportunities, such as workshops and networking, are also embedded in the BAIS, enabling students to connect and interact with professionals. Students receive an industry-funded scholarship totalling approximately \$40,000, which is paid over the duration of the course.

The VCE prerequisite for the BAIS is Units 3 and 4: a minimum study score of 25 in English (or equivalent) or 30 in English (EAL).

The VCE prerequisites for the BIT are Units 3 and 4: a minimum study score of 25 in English (or equivalent) or 30 in English (EAL); and Units 3 and 4: a minimum study score of 20 in any Mathematics.

Application for either of these courses must be made through VTAC.

Bachelor of Medical Research

Students who have an interest in the human body, health and disease – and more importantly, expanding what we know about them – may find the Bachelor of Medical Research the perfect course to study. The **Bachelor of Medical Research** is a 3-year program taught at the Hobart campus of the University of Tasmania. The course prepares students for *careers in medical research* by providing an understanding of the structure and function of healthy human cells, tissues, organs and systems, as well as of the abnormal genetic, cellular and systemic changes that characterise human diseases and conditions.

Students are able to select options that prepare them for careers or further studies in a range of specialties such as *biochemistry, pathology, neuroscience, genetics, pharmacology and other areas of medical research and medical science*. The degree also emphasises the acquisition of research skills and students will have exposure throughout the degree to scientists actively involved in medical research.

Importantly, from 2019 onwards, the Bachelor of Medical Research at the University of Tasmania will be the sole entry point into the Bachelor of Medicine/Bachelor of Surgery for tertiary applicants.
